"I have had more or less stomach trouble for eight or ten years," writes Mrs. G. H. Smith, Brewerton, N. Y. "When suffering from attacks of indigestion and heaviness after eating, one or two of Chamberlain's Tablets have always relieved me. I have also found them a pleasant laxative." These tablets tone up the stomach and enable it to perform its functions naturally. If you are troubled with indigestion give them a trial, get well and stay well.

Mr. and Mrs. Ash Ruby and daughter, Miss Cleith, went to Kansas City Tuesday for a visit. Mrs. T. C. Sanders returned Tuesday from a visit in May-view.

We find it to be the most reliable cough medicine we have used."

Mr. and Mrs. G. Spring and daughter, Miss Emma, left Tuesday for a visit in Mound City, Mo.

Miss Leila Welsh went to Independence Tuesday for a visit with her sister, Mrs. T. J. Stanley.

## Sour Stomach.

Eat slowly, masticate your food thoroughly, abstain from meat for a few days and in most cases the sour stomach will disappear. If it does not, take one of Chamberlain's Tablets immediately after supper. Red meats are most likely to cause sour stomach and you may find it best to cut them out.

## GERMANS WASTING MEN IN FLANDERS

Heavy Assaults Against British Lines Result Only in Loss of Many Lives.

## RUSSIANS MAKE MORE GAINS

Teutons Forced to Retire in Region South of Riga—Turks Defeated in Mesopotamia.

London, Oct. 3.—Two more counter attacks were attempted by the Germans against the British lines on the northeast corner of Polygon Wood and the Menin Road last night, but, as in the case of three heavy assaults made during the day, the enemy was smashed by artillery and rifle fire. Hard local fighting occurred at the place known as Cameron House, where the Germans yesterday forced the British back slightly, but, with the exception of two small posts, lost in this area, the British line was intact this morning.

### A Stinging Defeat.

The Germans also attacked during the night south of the Ypres-Roulers Railway in the neighborhood of Zonnebeke, but were repulsed.

The last twenty-four hours have been bitter ones for the enemy along the Ypres battle front. Not only have the Germans suffered a stinging defeat, but this defeat has been accompanied by grievous losses in men. The tremendous fire to which they were subjected by the artillery, rifles and machine guns was a revelation even to those accustomed to watching the marvelous work of the great British war machine.

### Slavs Beat Back Teutons.

On the northern front in Russia, in the region south of Riga, the Russians are keeping up their offensive against the Germans. Following up their attacks of Sunday, in which gains of from 800 to 1,000 yards were made, the Russians again have surged forward and beaten back the enemy for a distance of one mile south of the Kronenberg-Spital-Groundull sector. Quiet still prevails on the eastern front further south and in Galicia and in Rumania.

In Mesopotamia the British victory over the Turks at Ramadli, west of Bagdad, was greater than at first reported. In addition to capturing the town, nearly four thousand Turks were made prisoner and a large number of guns and quantities of war stores were captured. Moreover, heavy casualties were inflicted on the Ottomans.

### Germans Launch Violent Attacks.

Washington, Oct. 2.—Again the Germans have delivered violent attacks against the British troops in their newly won positions in the vicinity of the Ypres-Menin Road and the Polygon Wood. Two separate onslaughts were made, three hours apart, and both with huge effectives moving in wave formations. Everywhere the attacks were repulsed with heavy casualties, except opposite the southeast corner of the Polygon Wood, where two British advanced posts were captured.

### Stopped German Attacks.

Along both sides of the Meuse river in the Verdun sector the French and Germans are engaged in another terrific duel. Twice the Germans launched infantry attacks in an effort to capture positions, but on both occasions they were stopped by the French fire. While in England the demands of the people for reprisals against the Germans for air attacks on open towns continue to grow in volume, the French fliers have revenge themselves for a raid on Bar le Duc by heavily bombing the German town of Stutgart from the air. In all a half ton of explosives were dropped.

### Italians Took Many Prisoners.

In the Austro-Italian theater the Austrians have delivered several heavy counter attacks against the newly won positions of the Italians on the Bainsizza plateau, but everywhere have met with complete repulse. In the past three days in this region General Cadorna's forces have taken 3,019 Austrian prisoners.

Again the Russians, through an attack in the Riga region, have forced the Germans to give ground, this time for a depth of from 800 to 1,000 yards. Russian airmen to the south have dropped large quantities of explosives on enemy camps situated near Kovell.

### Banker Slain in a Feud.

Oklahoma City, Sept. 29.—Orban C. Patterson, widely known criminal lawyer, shot and killed Sam Williams, president of the Purcell Bank and Trust Company, Purcell, Ok., this morning. The shooting occurred before a large crowd.

### French Raid on Stuttgart.

Paris, Oct. 2.—Two French airmen successfully bombed the German city of Stuttgart Saturday night. It was officially announced today. It was in reprisal for German bombardments around Bar Le Duc.

### Boston Dock Men Strike.

Boston, Oct. 2.—A serious tie-up of ocean-going freight is feared from a strike of more than one thousand dock freight handlers, which went into effect today. The men demand an 8-hour day and an advance in wages.

## ATTACK DISLOYAL SENATORS

Petitions Reaching Washington From All Parts of Country Urging Ouster of La Follette and Others.

Washington, Oct. 2.—Petitions from New York organizations asking expulsion from the senate of Senators La Follette of Wisconsin, Gronna of North Dakota and Stone of Missouri, were presented in the senate today by Senator Wadsworth of New York and referred without action to the senate privileges and elections committee.

Vice President Marshall also presented today another lot of petitions, letters and telegrams from various organizations and individuals on the same general subject. Included were printed circular petitions indicating that many such are being circulated and probably will reach the senate in great numbers.

In reply to one correspondent Vice President Marshall pointed out that while the senate may expel a member, the initiative must come from a senator and cannot be forced by an individual or organization.

The first step toward official consideration of the petitions was taken today when Senator Pomerene of Ohio, chairman of the privileges and elections committee, called a meeting for next Wednesday. It was decided to have the committee discuss a course of action. The present attitude of senate leaders was said to be in favor of tabling the petitions in the committee.

Houston, Tex., Oct. 2.—Judge Walter T. Burns of the United States district court, in charging the federal grand jury at the beginning of the October term today, after calling by name Senators Stone of Missouri, Hardwick of Georgia, Vardaman of Mississippi, Gronna of North Dakota, Gore of Oklahoma and La Follette of Wisconsin, said:

"If I had a wish, it would be that you men had jurisdiction to return bills of indictment against these men. They ought to be tried promptly and fairly, and I believe this court could administer the law fairly; but I have a conviction as strong as life that this country should stand them up against an adobe wall tomorrow and give them what they deserve."

## GOVERNMENT CONTROLS COAL

Federal Officials Expect An Immediate Reduction in Price to Consumers—Limits Retail Profits.

Washington, Oct. 1.—Government control over the coal industry was made complete last night by an order of Fuel Administrator Garfield limiting the profits of retail coal and coke dealers throughout the country to a basis which is expected to bring about an immediate reduction in prices to the consumer.

The order, effective today, directs that the retailers shall fix their prices so as to limit their gross margins over cost to the average of such gross margins during the year 1915, plus a maximum of 30 per cent of the 1915 margin, provided that in no case shall the average margin of the month of July, this year, be exceeded.

Local committees appointed by the federal fuel administrator in each state will see to it that the dealers comply with the order and the dealers themselves will be called upon to return sworn cost sheets showing the facts upon which they have based their prices.

In other orders tonight the fuel administrator made the first revisions of his recently fixed prices of coal at the mine.

One order revises upward the mine prices in certain bituminous districts in which unusual conditions exist making the cost of production greater than in the principal bituminous fields. The new prices for run of the mine coal in those districts include:

Lafayette, Ray, Clay, Platte and Linn counties, Missouri, \$3.15; Appanoose, Wayne, Boone and Webster counties, Iowa, \$3.15; thick vein seams at Hartford, Midland, Hackett, Greenwood and Deming, Ark., \$3.05; Leflore and Haskell counties, Oklahoma, \$3.50; Okmulgee and Tulsa counties, Oklahoma, \$3.30; Cole county, Oklahoma, \$3.30; Pittsburgh and Latimer counties, Oklahoma, \$3.50; bituminous domestic coal in Walsenburg, Canon City, Rout, Garfield, Gunnison, Durango, Mesa, Pitkin, Montezuma, Delta, Montrose and Rio Blanca districts, Colorado, \$3; bituminous steam coal in Trinidad district, Colorado, \$2.75; lignite coal in the northern field and El Paso district, Colorado, \$2.45; Osage county, Kansas, \$2.55.

## TO HANDLE FLOODS

State University Seeking Way to Save Loss of Crops on Overflowed Lands.

## CAREFUL RECORDS ARE KEPT

Valuable Information Obtained for the Use of State When It Starts Reclamation Campaign.

Missouri is reported to have more land subject to overflow than any other state in the Union. It has been estimated that more than 3 million acres of land in the state are subject to crop failure on account of occasional high water. This is a matter of so much importance that the University of Missouri has been for fifteen years keeping careful records of stream flow in different parts of the state in order to get information upon which it may be possible to plan some scheme of flood control. The information thus obtained is valuable with reference to flood control and also in its bearing on the possible development of power for industrial uses. The extent of water resources for public water supplies will also be made known.

The state should, in the near future, adopt a definite and comprehensive plan to reclaim its swamp lands and thus increase the agricultural resources materially beyond their present extent. An extensive drainage project was recently completed in Southeastern Missouri along the St. Francis river and other streams that will bring into productive use many thousands of acres of first class agricultural lands.

In addition to the reclamation of swamps and overflowed land much can be done to improve low lands for agricultural uses by the installation of systems of drain tiling. This can be made of most effect only by careful and systematic effort and on a comprehensive scale. Closely allied to the problems of drainage is the possibility and economy of developing the clay resources of the state and using them in the manufacture of drain tile so that the expense of drainage projects may be reduced.
